

Currently I rely on the local FM translator that broadcasts K-LOVE to the Memphis, TN area. Please do not infringe on this service by allowing LPFM stations to supercede.

Even though K-LOVE is a broadcast nationally, they do supply the local citizenry with information about local events and concerts. Their format, Contemporary Christian Music, is unique and much needed. The only other way this platform is available is satellite (subscription) service.

In my opinion, K-LOVE has a positive effect on their listeners. They encourage good moral behavior, something that 90% of the rest of radio long forgot.

Do not allow LPFM to take this away!

Frank Carlton
